Our Vision:

“Kacie’s House for Women” is inspired by a spiritual way of living. We live and act as a family with one common goal above all else; to recover. We will actively practice a 12 step program and apply ‘spirituality’ as our way of life.

Our structured program includes a daily routine of clear-cut direction, which we will implement into our lives on our journey to recovery. Our goal is to come together as one suffering alcoholic/addict to another and to develop a relationship with a power greater than ourselves.”

... to recover**
